INTRODUCTION

Engineering Excellence Through Innovation, Quality & Commitment.

Welcome to Raj Sanitary Engineers Pvt. Ltd., a trusted name in Plumbing, Sanitary, and Fire Safety Engineering Solutions. With over 15 years of experience, we deliver high-quality, reliable, and sustainable systems that meet the evolving demands of modern infrastructure.

Our team combines technical expertise, innovative design, and advanced technology to ensure that every project—from conceptual planning to execution—is completed with precision and efficiency.

We have successfully executed projects across residential, commercial, institutional, and industrial sectors, providing customized solutions that ensure safety, hygiene, and long-term performance.

Why We Stand Out:

- Expertise & Experience: Proven track record in handling complex engineering projects.
- Innovation: Implementing advanced MEP solutions and fire safety systems.
- Reliability: Commitment to timely delivery, quality assurance, and client satisfaction.
- Sustainability: Eco-friendly practices integrated into plumbing and sanitary systems.

At Raj Sanitary Engineers Pvt. Ltd., we are dedicated to building safe, efficient, and sustainable environments, where every system installed reflects our commitment to excellence.

ABOUT US

Raj Sanitary Engineers Pvt. Ltd. began its journey as a proprietor firm in 2007, founded with a vision to deliver high-quality plumbing, sanitary, and fire safety solutions across India. In 2025, the company evolved into a Private Limited Company, strengthening its organizational structure and expanding its capacity to undertake large-scale projects with greater efficiency and professionalism.

Over the years, we have established ourselves as a trusted name in the engineering sector, specializing in MEP (Mechanical, Electrical & Plumbing) solutions, fire safety systems, and comprehensive sanitary engineering. Our expertise spans residential, commercial, institutional, industrial, and airport projects, where we provide solutions tailored to meet unique client requirements.

Our Strengths

- **Experience & Expertise:** Over 15 years of industry experience, with a proven track record of successful projects.
- **Comprehensive Solutions:** End-to-end services covering design, installation, and maintenance.
- **Innovative Technology:** Use of latest tools, equipment, and management systems to ensure efficiency and accuracy.
- **Client-Centric Approach:** Focus on quality, safety, and timely delivery, with a commitment to exceeding client expectations.

VISION

To be the most trusted engineering solutions provider, recognized for quality, innovation, and reliability in plumbing, sanitary, and fire safety systems.

MISSION

Deliver safe, sustainable, and efficient solutions that exceed client expectations while fostering growth, integrity, and long-term partnerships.

FROM THE DESK OF MANAGING DIRECTOR

It gives me immense pride to reflect on the journey of Raj Sanitary Engineers Pvt. Ltd.. Since our inception as a proprietor firm in 2007 and our transformation into a Private Limited Company in 2025, we have consistently pursued excellence, innovation, and client satisfaction.

RAJ KISHORE ROUT
MANAGING DIRECTOR

At RSE, we firmly believe that investing in human development is the foundation of long-term business success. Our commitment is not only to deliver projects efficiently but also to meet and exceed client expectations, ensuring safety, quality, and sustainability at every step.

We are dedicated to expanding our footprint locally and nationally, always adhering to the principles and values that have shaped our organization. Our success is measured by customer satisfaction, quality of service, and the long-term relationships we build with our clients.

I take pride in the sincerity, dedication, and workmanship of our team, which has been widely recognized and appreciated in the industry. We assure our clients of full cooperation, reliability, and commitment in every project we undertake.

We look forward to building enduring partnerships and contributing to the development of our communities and the nation.

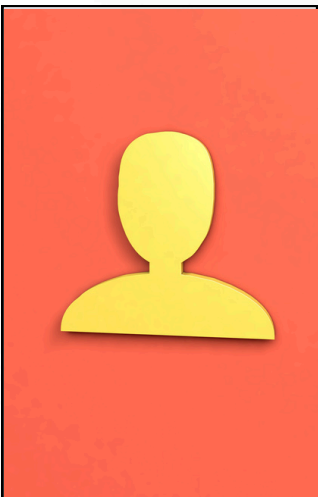

CORE TEAM

Rajanikanta Rout

PROJECT DIRECTOR

Rajanikanta Rout leads the day-to-day operations of all projects at Raj Sanitary Engineers Pvt. Ltd., ensuring that each project aligns with the company's strategic objectives. With extensive technical and managerial expertise, he oversees planning, execution, and quality control, guaranteeing timely and successful project completion.

Mr Das

VICE PRESIDENT

As Vice President, Mr. Das plays a pivotal role in providing strategic guidance to the organization. He oversees cross-functional coordination, ensuring smooth communication and workflow across all departments. With his expertise in project planning, management, and organizational operations, he contributes significantly to the company's growth, efficiency, and client satisfaction.

Nalinkanta Das

HEAD OF PROCUREMENT & TENDERING

Nalinkanta Das manages the procurement, tendering, and supply chain operations, ensuring that all materials are sourced efficiently, cost-effectively, and with uncompromising quality. He supervises vendor selection, contract negotiation, and timely delivery, supporting smooth project execution and maintaining high standards in every project.

OUR FOCUS & VALUES

OUR FOCUS

- **Engineering Excellence:** Delivering high-quality plumbing, sanitary, and fire safety solutions.
- **Innovation & Technology:** Using modern tools, advanced techniques, and smart solutions for efficient project execution.
- **Client-Centric Approach:** Tailoring services to meet unique client needs and ensure long-term satisfaction.

OUR CORE VALUES

-  **Integrity** – Upholding transparency, honesty, and ethical standards in every project.
-  **Innovation** – Continuously adopting modern technologies and innovative methods.
-  **Quality** – Delivering reliable systems that comply with safety standards and client expectations.
-  **Sustainability** – Providing eco-friendly, water-efficient, and energy-conscious solutions.
-  **Teamwork & Collaboration** – Skilled professionals working together to achieve exceptional results.
-  **Customer Satisfaction** – Measuring success by trust, satisfaction, and long-term relationships with clients.

PLUMBING & SANITARY SOLUTION

Delivering Reliability, Sustainability & Precision in Every Drop.

At Raj Sanitary Engineers Pvt. Ltd., we bring decades of hands-on experience and technical expertise in Plumbing and Sanitary Engineering solutions. Our approach blends innovation, quality workmanship, and environmental responsibility to create efficient systems that perform flawlessly across residential, commercial, and industrial projects.

We understand that well-designed plumbing and sanitation systems are vital for healthy, sustainable living spaces. Hence, our team ensures every installation is safe, durable, and compliant with both local and international standards.

Our Plumbing Expertise Includes:

- Internal and external water supply system design and installation
- Pipeline layout planning, pressure testing, and system maintenance
- Water treatment and storage systems for sustainable use
- Smart plumbing networks ensuring minimal water loss and easy maintenance

Our Sanitary Engineering Expertise Covers:

- Drainage and wastewater management systems
- Sewage treatment and stormwater disposal networks
- Eco-friendly sanitation designs ensuring hygiene and efficiency
- Sustainable materials and modern techniques for long-term reliability

Why Choose Our Expertise:

- Over 15 years of proven experience in large-scale MEP installations
- Team of qualified engineers, supervisors, and technicians
- Use of latest equipment, testing tools, and safety protocols
- Commitment to timely delivery, cost-effectiveness, and quality assurance

We don't just build systems — we build trust.

Our projects stand as a testament to our precision, dedication, and ability to deliver world-class plumbing and sanitary solutions tailored to every client's needs.

FIRE ALARM SAFETY SYSTEMS

Protecting Lives, Property, and the Future with Smart Fire Solutions.

At Raj Sanitary Engineers Pvt. Ltd., safety is at the heart of every project we deliver. With our in-depth knowledge and technical mastery in Fire Protection Systems, we design, install, and maintain end-to-end fire safety solutions for residential, commercial, industrial, and institutional facilities.

Our Expertise Includes:

- Fire Hydrant Systems – Complete design and installation with robust pressure control and coverage.
- Automatic Sprinkler Systems – Intelligent water discharge systems for immediate fire suppression.
- Fire Alarm & Detection Systems – Advanced sensors and alarm panels for early detection and alerts.
- Fire Suppression Systems – Specialized gas and foam-based systems for sensitive areas like server rooms and labs.
- Testing, Inspection & Maintenance – Regular system audits, performance checks, and preventive maintenance to ensure continuous safety.

Why Choose Our Fire Safety Systems:

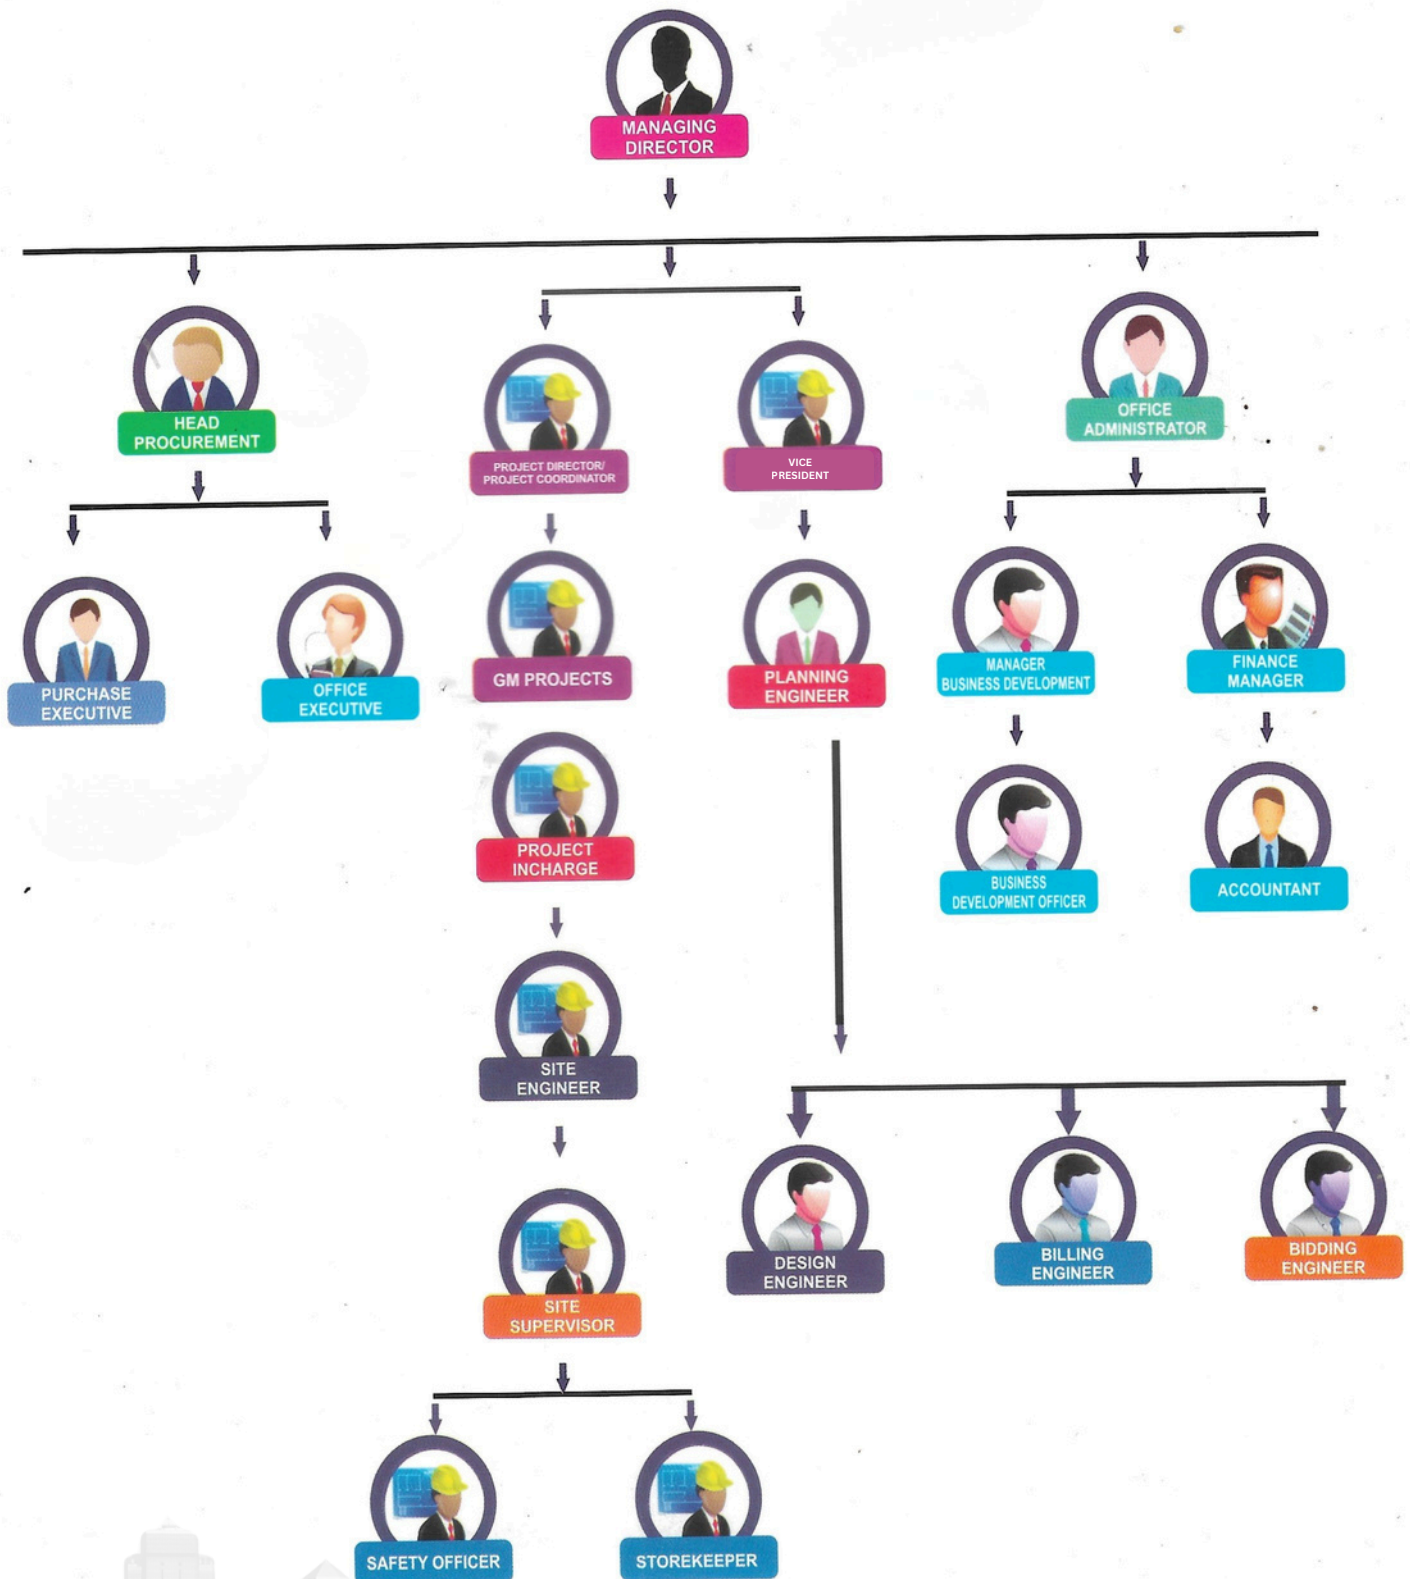

- Certified and experienced engineers with years of on-site expertise.
- Compliance with National Building Code (NBC), IS Standards, and NFPA guidelines.
- Integration of advanced fire technology and high-quality components.
- Comprehensive solutions – from design consultation to annual maintenance contracts.
- Proven track record in delivering fire safety for airports, hospitals, hotels, and large-scale infrastructures.

Our Commitment:

At Raj Sanitary Engineers Pvt. Ltd., we don't just install systems — we create layers of protection that safeguard communities, assets, and lives. Every project reflects our unwavering dedication to quality, safety, and innovation.

OUR TEAM

Skilled Minds, Dedicated Hands – Driving Excellence Together.

ORGANIZATION SETUP & LABOUR STRENGTH

Structured Teams, Skilled Workforce, Seamless Execution.

At Raj Sanitary Engineers Pvt. Ltd., our success lies in a well-organized structure supported by a skilled and dedicated workforce. With over 60 experienced professionals, including engineers, supervisors, and technicians, we efficiently manage projects of all sizes while maintaining high standards of quality, safety, and productivity.

ORGANIZATION SETUP:

Our team is structured to ensure clear responsibilities and smooth coordination across all projects:

- Managing Director: Strategic leadership and overall operations
- Project Directors: Planning, execution, and client coordination
- Operational Heads: On-site supervision and resource management
- Procurement & Supply Team: Timely delivery of quality materials
- Site Management Team: Skilled engineers and supervisors managing daily operations

LABOUR STRENGTH:

We maintain a flexible and scalable workforce, ensuring projects are completed efficiently:

| Segment | Skilled Labour | Semi-Skilled Labour | Unskilled Labour | Total |
|----------|----------------|---------------------|------------------|-------|
| Plumbing | 65 | 50 | 70 | 185 |

Note: Labour strength is nominal and can be increased based on project demand. We also have regular labour suppliers for quick deployment within 2–3 days.
